

Section 1 – Setup Amazon Q Business

The screenshot displays the AWS IAM Identity Center console. The top navigation bar shows the AWS logo, a search bar, and the account ID: 4420-0021-9611. The main content area is divided into two sections. The top section, titled "Applications", shows a list of applications with one application, "CareerCoachAssistant", listed. The bottom section, titled "CareerCoaches", shows the details of the "CareerCoaches" group, including a list of users in the group.

Applications

Q Business applications may securely transmit data across Regions within your geography for processing. For more information, access [Amazon Q Business Documentation](#).

Section 5 – Enhance security of your application

Created access control list(ACL) and applied

Sync scope [Info](#)

Enter the data source location [Info](#)
Locate the S3 bucket where your data is stored.

[X](#) [Browse S3](#)

Maximum single file size [Info](#)
Set the maximum file size for crawling. Files with size upto 10,240 MB for video files, 2,048 MB for audio files, 500 MB for PDF/Word/PowerPoint documents, and 50 MB for all other supported documents can get indexed. Note that regardless of file type, any file with extracted text exceeding 30 MB won't be indexed. [Learn more about enabling video and audio.](#) [L2](#)

MB
Standard text documents: 500 MB max. If video/audio enabled: videos up to 10,240 MB, audio up to 2,048 MB.

Access control list (ACL) configuration file location - optional [Info](#)
Locate the ACL configuration file.

[X](#) [Browse S3](#)

► Metadata files folder location - optional [Info](#)
Locate the folder that has your metadata JSON.

► Filter patterns - optional
Add a pattern to include only certain folders, or to exclude folders, file types or specific files in your repository. All paths are relative to the data source location S3 bucket. You can have a combined total of 100 patterns.

► Multi-media content configuration - optional

► Advanced Settings - optional [Info](#)

Career-coach-two – Access:

- Before ACL applied:

show medical courses

Medical Courses Overview

The medical curriculum includes various courses across different semesters and specialties. In the third semester, students take Neuroscience and Neurology, which covers pathology, physiology, and structure of the brain, spinal cord, and nervous system. [1]

Evidence-Based Medicine is offered as part of the research curriculum, teaching students to develop clinical questions, search strategies, and critical appraisal of medical literature using online resources. [1]

Some medical schools require specific competencies in Biology (gene expression, cell structure, metabolism), Mathematics (statistics, data analysis), and Physics (mechanics, electricity, magnetism). [2] George Washington University recommends courses in Literature, Mathematics, and Physics. [2]

The University of Iowa requires two semesters of introductory Biology with labs plus an advanced course, three semesters of Chemistry including General and Organic with labs, two English courses, one advanced Mathematics or Statistics course, and two semesters of Physics with labs. [2]

Clinical Medicine curriculum consists of an eight-week research module followed by 72 weeks of clinical clerkships, including 42 weeks of required core rotations (Internal Medicine, Surgery,

- After ACL applied:

list down the medical courses

Based on the available course catalog information, there is only one medical-related course mentioned:

MED201: Material Science and Engineering (3-0-1, 4 credits), which appears in the First Semester curriculum with 20 credits. ^[1] This course is categorized under Engineering Sciences (ES). ^[1]

No other specific medical courses are found in the provided data source. The documents primarily contain information about Core Common Curriculum requirements, Computer Science courses, and basic curriculum structure at SNU.
